The thesis and oral defence demonstrated - a deep and thorough understanding of the research field, - the originality and independence of the work, - rigorous and outstanding argumentation, - a comprehensive evaluation of the work within the field, and - that all are in an integrated, coherent, and appropriate form.	The thesis and oral defence demonstrated - an in-depth understanding of the research field, - the originality and independence of the work, - solid and sound argumentation, - a complete evaluation of the work within the field, and - that major points are delivered in an integrated, coherent, and appropriate form. However, there are still some minor weaknesses in the thesis.	The thesis and oral defence showed - an average understanding of the research field, - the questionable originality of the work, - merely justified argumentation, - an incomplete evaluation of the work within the field, and - that most major points are not well integrated. There are some major weaknesses in the thesis.	The thesis and oral defence did not effectively show - an understanding of the research field, - the originality of the work, - sound argumentation, - an evaluation of the work within the field, and - that major points are integrated and coherent. There are major flaws in the thesis and oral defence.
